Atlantis

Atlantis, the guarantee of sustainability and style in the headwear industry.

The textile industry is one of the most polluting in the world. A chaotic cycle of production and consumption, based on the overproduction of low-quality goods, contributes to a worsening situation. We oppose this trend with all our energies. We focus our efforts on quality material, a secure production line, and continuous research and development, in order to create products destined to last.

Atlantis Headwear began in the 1990s with a simple mission: to create headwear people could love, wear proudly, and make their own. We wanted to be different, to create something lasting—something that wasn't just 'another hat.' Over the years, as our caps gained popularity and started appearing worldwide, we realized that we had a chance to do something bigger with our products. We didn't want to just make high-quality headwear; we wanted to make a positive impact.

A bright future with everyday actions.

We create products that last in time, reducing the environmental and improving the social impact, inspiring people that participate in our effort.
